

Quick Circuit HEPA Vacuum System

Features

- Compact design**
- Contains anti-microbial bag filter**
- HEPA filtration system**
- Medical Grade HEPA filter included**
- Ultra quiet performance**
- Infinite speed control**
- Quick access compartment**

T|Tech's HEPA vacuums features an extra large main filter assuring a steady, even airflow ; a large capacity bag; a motor thermo-valve which prevents over heating; and a durable trolley that adds mobility. The HEPA filter achieves a filtration of 0.3 microns, preventing respiratory irritation from fiberglass dust. Necessary for the operations of any Quick Circuit machine to remove particles from the milling process. Both models feature a 2 year warranty.

Part Numbers

Hepa Vacuum System:

HepaVac 115
HepaVac 230

Replacement Parts:

HepaVac Bag
HepaVac Filter

Specifications

10" x 12" x 14" (25 x 30 x 35 cm)
28 lbs (12.5 kg)
Airflow 120CFM (241 m3/hr)
120 volt, 3.5 amps @230 volts
